Washington Racing Pigeon club, a branch of the American Racing Pigeon union. Many of the Washington club races flown during the past summer and fall have been won by Department of Agriculture birds, which number about 250.

Just what faculty enables the homing pigeon to return to its loft many miles away is a point of dispute among eminent homing-pigeon breeders. Some attribute it to remarkable instinct. Others maintain that this bird has sight so brilliant and power- A Side Elevation of the Truck in Posiful that it is able to see much farther than any other species, while there are some who claim that it is the ex- quickly load itself, and can be transtreme and strong attachment for ported from place to place with and home, coupled with a peculiar memory. without its load.

Training the Birds. It is necessary to keep the birds in TUBERCULOSIS OF CHICKENS good condition with plenty of outdoor exercise, both in good and bad weather, if they are to have endurance for long flights. The young birds are usually hatched in February and March. During the time when the eggs are being incubated and the young common and is caused by a type of cared for, only one of a pair is trained tubercle bacillus which has become each day. On alternate days the other is shipped to the training station. In tuberculosis from poultry to mamthis way the breeding is not interfered with, and the eggs or young are never in case of hogs. Hogs contract tuber-

left without one or the other of the

In the beginning of the training the birds are conveyed in a basket not affected, squat in secluded places and more than six or eight blocks from buildings. The basket is faced toward dressing a diseased chicken the breast their lofts to an open spot away from the loft and the birds liberated at once. At this distance pigeon specialists advise practicing them from Cheesy masses in any of these organs all points of the compass. The next step is to select the route over which it is intended to fly the birds. From half a mile the distance can be increased to 1 mile, then 5, 10, 50, 100, and 200 with the leaves to the compass. The next is always suspicious. The disease may be detected by means of the intradermal tuberculin test.—George H. LESSON FOR JANUARY 16

OUR ALL FOR THE KINGDOM.

LESSON TEXT-Matt. 19:16-30. REFERENCE MATERIAL-Matt. 6:11 19:1-15; Mark 10:13-16; I Tim. 6:9, 1

JUNIOR TOPIC-Gaining by Giving INTERMEDIATE AND SENIOR TOPIC Money, a Help or a Hindrance. YOUNG PEOPLE AND ADULT TOPIC

Our lesson title is likely to be mis understood and therefore the teaching misapplied. Christ did not directly nor by implication teach that eternal life could be obtained by parting with

I. The Young Man (v. 16). For a full view of the characteris tics of this man see Mark 10:17-30 and 1. His virtues. (1) Courageou (Mark 10:17). He was of high stand-

ing-a rich young ruler (Luke 18:18, 23). To come to Jesus at this time meant ostracism from the Jewish commonwealth. (2) Earnest (Mark 10:17) with the things of this present life fesses to have conformed to God's holy law. (5) Confidence in Christ (v. 16) He believed that Christ could inform him of the "good things" to be done

2. His errors. (1) About Chris (v. 16). He esteemed Jesus to be good but did not apprehend Him as God (2) Concerning himself. He was self righteous. He thought he was good and could do something good. (3) Concerning eternal life. He had a de fective theology-he thought tha eternal life could be obtained by good works. He did not know that the only way to get eternal life was to eceive it as a gift from God (Ron

II. How the Lord Dealt With Him 1. His Question-"Why callest thou was to lead the young man to a correct e giving him a chance to answer. He declared that only God was good, as if to say, "I am good and therefore God." If He is not God He is not good; for if He was not what He professed to be He was an arch impostor, for He made himself to be

equal with God. 2. Jesus' answer to the young man's juestion (v. 17-20). "If thou wilt ener into life, keep the commandents." Christ met him here on his own ground, namely, that of the law. The law reveals sin-shuts the mouth of the self-righteous sinner (Rom. 3:19, 20). If one insists on getting life by doing something, the law is what must be done, kept. This no one has ever done, nor indeed can do, for the law curses instead of saves (Gal. 3:10). 3 Christ's command (vv. 21, 22), I Christ's command to go and sell hi possessions and distribute to the poor

neighbor as himself. When he had to make the supreme decision between Jesus and his possessions he chose hi wealth and let Jesus go. III. The Relationship of the Rich to

are most favored by New York women instead of with their feet, and anoth- the kingdom (vv. 23, 24). This diffiriches and be an heir of the kingdom. cient and modern times have been surface of the water, though the Jack- chose to "dwell in tents"-to believe in God at any cost-looking to a city. "Both the Mr. and Mrs. Penguins that hath foundations. The difficulty the class of the very smart attire. Sim- have the same eating habits, and they lies in trusting in riches. Riches are plicity is the keynote of the season's share most of the work and play to- deceitful (Matt. 13:22). The tendency of increasing wealth is to destroy the nobler life of the soul. It lulls into security (Rev. 3:17). It leads to self indulgence (1 Tim. 6:9). It leads pride (Ezk. 28:5); (cf. Prov. 28:5). 2. Entrance into the kingdom is possible, though difficult (vv. 25, 26). (1)

It is possible for the grace of God to sanctify riches. The mighty hinderin influence may become a great influence for good in the hands of a regenerated and consecrated soul. (2) It is possible for the grace of God to open a man's eyes that he may see his downward course and repent. (3) It is possible for the grace of God to change a man from self-seeking to self-sacrifice. (4) It is possible for the grace of God to make men humble. FARMVILLE MFG. CO.,

vv. 27-30). Those who turn their backs upor their kindred and possessions for the sake of Christ shall receive an hunlredfold in this life and eternal life in the world to come. Those who for sake all to follow Christ shall reign with Him in the glory.

God and the brotherhood of all men.

IV. Reward for Following Christ

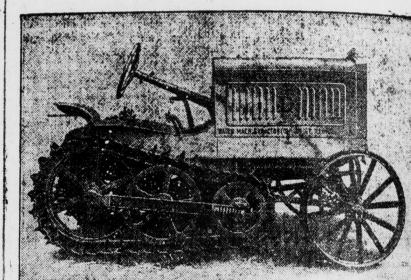

The moment you stand still and say,

"I am just going to be an interested the way of the Master's progress. If you stand, some one else will stand too. If you are not with Him you home. America is waiting for the manifestation of the sons and daughters of God, to become part of that great force which will bring us to a fuller realization of the Fatherhood of

world's brotherhood and salvation. Need to Be Born Again. The root of all dissatisfaction and frock. Very often a small ribbon coverelvets of today.

At all events it is war between the birds and the birds are described by well-trained muscles. Do not allow covery of that will for us, and the yourself to be hurt by every chance doing it our chief aim and hope. No word, every careless insinuation, every change in life's circumstances, no be enough. We ourselves need to be born again; it is not our outward life

### **Every Inch of the Bates Steel** Mule is Thoroughbred

The United States Government by means of the Depart. ment of Agriculture, has been looking into the tractor question, and its bulletins clearly proves that the satisfied tractor owner-men who say that the tractor has paid-are men who own the BETTER CLASS of tractors. The successful man has learned years ago that he can't get something for nothing, No one can. The reason the BATES STEEL MULE costs more is that it is worth more. Skilled factory procedure, quality production and the most modern Machinery enables us to save money at every turn, yet the BATES STEEL MULE cost slightly more in the beginning to build but considerably less in the long run to own. It's just another case where a seemingly higher priced article is far cheapest to own when you come to

actually USE it. The Bates thoroughbred quality comes not from mere claims, but from what's put into it. Every part that goes to make up the BATES STEEL Mule is put there by long field experience. There isn't a part that isn't time-tried and tested. There isn't a part that experience hasn't dictated the shape and size of; and in it all there isn't one superfluous part, nor one part that isn't capable of standing up under twice the strain it gets in actual use. These are things experience and practice have distracted. The BATES comes to you as a fulfillment of your desire for a tractor that will endure. Price is what we pay for a thing. Value is what we get out of it. Consider your tractor from what you will get out of it, consider how many working days you have when the ground is wet, consider the operations where you cannot afford to pack your me good?" (v. 17). His object in this seed bed, and consider how constantly and economically they must be performed even in rush times, you will then see why the BATES STEEL MULE is the biggest value offered in any

### tractor on the American market today. Moses & Hancock
